

# Alternative 2x2-inch Tiles for "Castle Ravenloft" the Board Game.

Fan art created by Peter Vodden ([www.petervodden.blog](http://www.petervodden.blog)) 2026. **Instructions:** Cut approximately around each tile leaving some border. Stick each tile onto 2 mm thick cardboard or foam board. (Don't use water-based glue like PVA as it will warp the tile). A strip of double-sided tape around the edge works well. Finally, trim away the excess border to create an accurate 2" x 2" tile.
